

Lake Forest Peer-Networking Leadership Book Discussion Breakfast: INNOVATION & PASSION

Date: 11/01/2011
Time: 8:00 – 10:00 a.m. (Central)
Focus Area: Leadership Development

The focus of this session will be **Making Leadership Development Stick Book Discussion: INNOVATION & PASSION**. It's been nearly three years since we visited Innovation as a focus for a leadership breakfast book discussion topic and are looking forward to pairing up this topic up with a **key driver for Innovation: Passion**.

We will be facilitating this leadership book discussion on two books where complimentary summaries will be made available for participants:

- **The Innovation Secrets of Steve Jobs, *Insanely Different Principles for Breakthrough Success*** (2011, Gallo) - [click here](#) for 8 page summary
- **The Pursuit of WOW! *Every Person's Guide to Topsy-Turvy Times*** (1994, Peters) [click here](#) for 5 page summary

I personally found the recommendations in both books insightful while the more recent publication delves into seven principles core of Steve Jobs innovations and Tom Peters' timeless insights for "Encouraging Your Unique Employees." Both authors provide solid insight on the importance of Passion for Innovation as a leadership competency.

Purchasing these books is optional before attending our peer networking breakfast; getAbstract & EBSCO Publishing are providing complimentary book summaries (use hotlinks above to print your copy).

Description:

DURING OUR LAST OUR CONVERSATION IN 2009, we explored shaping the learning industry's body of knowledge on the role of learning, learning leaders and the learning/training organization in driving & enabling innovation. We share hyperlinks to [our notes from 1/23/09 innovation discussion](#) where we contributed new content to <http://en.wikipedia.org/wiki/Innovation> (a great example of Learning Leaders contributing to body of knowledge).
